REMOTE VIDEO SOLUTIONS

The user-friendly, cost-effective solution

With the revolutionary new Guardian Genie Vision, from preventing employee theft to checking the stockroom to being notified when the safe is opened to watching how customers are treated, the possibilities are as unlimited as your imagination. Now you're in control.

Storage

Genie Vision offers features not found in a DVR such as remote video storage on our secure servers and an easy to use Web-based interface. No matter where you are in the world, your video is retrievable. No matter what action is taken on the premise, the criminal cannot destroy the evidence.

Instant Notification

Use Genie Vision for remote business management and you won't have to spend hours looking through video. You'll immediately receive a video file of any event e-mailed to your PC or Pocket PC device. In addition you will receive notification through SMS text messaging. Patented video compression technology creates full-color video files that can be easily downloaded.

Exploration & Total Control

If you can surf the Web, you'll feel right at home using our viewer software. You can enjoy live look-in for all of your business locations from one easy to use Web-based dashboard. You'll have unlimited 24-7 access to the site from anywhere that has Internet access. This is ideal for multi-location businesses – manage up to 30 locations by logging on to just one Web site.
